HONEY DESSERT «FRUIT HONEY»

GAPCHINSKA®

HONEY DESSERT «FRUIT HONEY»

Jam – a favourite delicacy from childhood! It's benefits are in berries and fruits, but not in sugar. In order our «FRUIT HONEY» to give strength and health, the function of the sweetener in it is performed by a natural sweetener – fructose. And bee honey acts as a natural preservative! In order not to heat the honey, we boil the fruit and berry ingredients in fructose, and then add it to the honey! So the delicacy preserves the useful qualities of natural ingredients and due to honey it is additionally enriched with unique enzymes, microelements and vitamins. Such preparation of berries and fruits on honey is the basis of many old recipes that can increase vitality and protect against various health problems.

«FRUIT HONEY» is an amazing flavouring bouquet of berries or fruits with honey and double health benefits! You can use it all year round! When you want a tasty and healthy or just smile, a jar of «FRUIT HONEY» will come to the rescue! I wish you good mood and be healthy!
